How responsible is Nature-treks.com

We are fully committed to our objectives, mentioned above, though we will not promise what we cannot deliver. The beauty of this trekking project is that most of the income generated from our clients goes to the communities. We are really giving back to communities, more than we actually make. And most of our staffs (support and porters) come from the communities. The knowledgeable and experienced guide/tour leader escorting the guest on the trek, will be from NTH only, to make sure the trips run smoothly and qualitatively.

About Us

Nature-treks.com Himalaya (NTH) is an adventure and nature based company established in the year 2007, registered under the government of Nepal. NTH promotes and operates the responsible and eco-tourism in Nepal.

NTH is the member of eco-tourism society (TIES), bird conservation (BCN) and member of NRCT. Besides it is also a member of other related organizations such as TAAN and NMA etc.

Team

NTH is run by highly experienced, dedicated and responsible professionals. Vimal Thapa, the founder member of NTH, has the experience of about two decades of adventure and nature tourism and is also involved in conservation organizations (Bird Conservation, Friends of Bird, Nepal River Conservation Trust) and is a passionate birdwatcher and ornithologist. Megh Ale, also a founder member of NTH and founder of other groups of companies, is the founder of Nepal River Conservation Trust and is an Ashoka fellow. Other well-known figures associated are Dr. Mahabir Pun, the leader of Nepal Wireless and Magsaysay award winner and Anil Chitrakar, who does not need any introduction. At the same time other members are Binita Ale, Sanjiv Thakuri and Dr. Bhim Gurung, Nepal tiger expert.

Come and be a part of these meaningful treks for community' and nature conservation!

We can make a definite difference together!

Our Other Trips:

- BIRD WATCHING TOURS & TREK
- WILD LIFE TOURS
- RHODODENDRON TREKS

Annapurna Dhaulagiri Community Eco-Lodge Treks

In association with the communities!

Undeniably, Nepal is one of the best destinations for adventure and culture with nature in the world. It is the only country in the whole world with highest, breathtaking and awe-inspiring mountains, deepest gorges and mystical valleys.

The ADCELT runs through the settlements of culturally rich Magar community, through the spectacular hills of Mohare and Khopra, which offers the amazing panoramic views, that are beyond the word can describe. The views of mountains such as Dhaulagiri and Annapurna massive, Manaslu, Machhapuchhare (Fishtail), Himal Chuli to Jugal range that dominates the northern horizon from west to east are extraordinary. Besides this, the pristine and wonderful forest of Chilaune, Pines, Fir, Castanopsis, Quercus and Rhododendrons provides a great scene and peace of mind being in the nature. The chirping of beautiful mountain birds such as Grosbeak, Yuhinas, Tits, Magpies, Pheasants etc. and anticipation of encountering the wildlife such as deer, Himalayan bears and common leopard makes the trail very exciting and lively.

Objective

Being a responsible adventure travel company, we at Nature-treks.com/Himalaya (NTH) comprehend that, "ecotourism" is all about communities, conservation, education, environment and sustainable travel. And hence our sincere objectives are: to support the community owned and run eco-lodge, help building environmental and cultural awareness to provide positive experiences for both tourists and locals, provide real economical benefits, and create employment opportunities. At the same time encourage and promote the nature conservation by minimizing the impact on environments, supporting the preservation of local culture.

How do we work!

NTH is collaborating with the communities of Myagdi district, in running the community eco-lodge and home stay, with a clear and honest intention to make this a meaningful journey for the visitors that supports the communities in real sense of economic benefit for education and community, as a whole. NTH is carrying out all the promotion work and operation from Kathmandu. As the trend of eco-tourism and responsible tourism is growing we hope to bring tourists that are interested in supporting our objectives to create sustainable communities. As we are talking about providing the real economic revenue, the operation cost will be higher than the normal commercial lodge treks that have been dearly costing the culture and environment. And the best part is that the most of the income goes to the communities. For this we have carefully designed the two different itineraries. The treks would be led by an experienced and knowledgeable tour guide/leader from NTH but the support staffs and all porters will come from the communities only. After training and employing, we aim to rely on the local guides and all other staffs from the village, so that they enjoy the employments at home and can work forwards the communities' and its betterments.

Highlights and attractions

- Views of over 30 different snow clad mountains peaks, including three over eight thousand meters Dhaulagiri I, Annapurna I and Manaslu
- Off the beaten path and natural environment
- Magar culture (way of life and ancestral dances)
- Lush Orange and organic farms and Nepali paper making
- Community managed eco-lodges, schools and forest
- Rich bird life and beautiful Himalayan flowers
- Wi-Fi (Internet)
